

NAILD Congratulates All 2018 LS Program Grads

NAILD's Lighting Specialist (LS) training and certificate programs provide lighting distributors, vendors, manufacturers and associates with a measurable and systematic way to strengthen their employees' knowledge of lighting fundamentals. NAILD offers three LS programs—LS-I, LS-II and LS-Controls (LS-C). Those who graduate from the courses receive a certificate and are invited to use the proper appellation (LS-I, LS-II or LS-C) on their business cards and marketing materials.

NAILD, IMARK and NEMRA members, as well as many others within the industry, continue to enroll in the LS training courses. NAILD would like to recognize all of the 2018 LS program graduates.

Congratulations to the following LS-I grads:
